

Open positions – European Youth Energy Network

Web Designer / Web Developer (4h/week)

Are you a passionate student or young professional, and want to contribute your skills and curiosity towards a strong youth voice in energy? Then the European Youth Energy Network (EYEN) is the right place for you to thrive.

Let's reshape youth engagement in the European energy transition together!

EYEN is the Federation of energy-focused youth organisations in Europe, uniting organisations from across Europe and reshaping youth engagement towards a just, empowered and collaborative energy transition. We advocate for the meaningful engagement of young people in the energy transition, and we create spaces that allow them to have an impact. For the coming years, we have big plans on empowering, connecting, coordinating, educating and advocating where youth and energy meet. EYEN's flagship annual event: the **European Youth Energy Forum** with its 12 practical policy proposals.

To better tell the story of the international non-profit association and grow our communications impact, **we are building a strong team**. We promise that if you join us, you'll embark on a huge learning journey and meet like-minded people from across Europe and beyond.

Will you contribute your techy-creative superpowers to the European energy transition, in an ambitious federation?

European Youth Energy Network (EYEN)
80 Boulevard Auguste Reyers
1030 Bruxelles

Open positions – European Youth Energy Network

Web Designer / Web Developer - continued

→ Your role

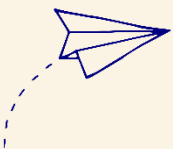

- Design and implement new pages to (better) present: our ground-breaking activities, news and upcoming events, campaigns, members & partners and their opportunities and more
- Maintain the website, improve existing pages and update content
- Coordinate with the Content Writer/Copywriter and the Communication Lead

→ You are a good fit for this role if you

- Speak and write fluently in English
- Are an autonomous, creative learner and motivated to become a pro
- Are curious about the young energy community and are enthusiastic about being part of it
- Can work independently, yet also love teamwork
- A plus: previous experience in WordPress, Figma or HTML & CSS

→ The experience is 100% worth it. This is why ▼

- You will work in a dynamic (and fun!) group of international young professionals and students, co-creating the development of an impactful organisation
- You will learn a lot about youth involvement in the energy sector and benefit from our network with contacts to a wide range of organisations and institutions
- You will be part of a project that can fulfil you as key player in the integration of youth in the energy transition

Apply now by sending your motivation and CV until 5 February 2023 to careers@youthenergy.eu, adding any proof of work would be desirable.
